FACT SHEET

Corporate Profile: Founded in 1841, Aker ASA is a Norwegian industrial investment company that creates shareholder value through active ownership.

Business model: Our ownership interests are concentrated on key Norwegian industries that are international in scope and of which we have in-depth knowledge: oil and gas, fisheries & biotechnology, and marine assets. Aker's investment portfolio companies hold leading positions in select market segments and are well placed to benefit from the growing global demand for sustainable production of energy, seafood and omega-3 products.

Through our participation on the board of directors, Aker drives operational and strategic improvement, assists with financing and restructuring, and influences industrial transactions. Based on our industrial and financial expertise, we strive to establish long-term profitable growth, competitive market positions and sound organisational cultures. Our aim is to ensure sustainable value creation for all shareholders.

Aker's solid balance sheet allows us to support strategic initiatives in our companies, act rapidly when investment opportunities arise and provide our shareholders with a stable dividend payment. Since 2004 the company has upheld a policy of paying annual dividends of 2-4 percent of net asset value to shareholders.

Operating model:

Industrial Holdings: comprise Aker's ownership interests in Aker Solutions, Kvaerner, Det norske oljeselskap, Aker BioMarine, Aker Seafoods and Ocean Yield. In each of these companies, Aker holds a significant stake, and has an ownership agenda for strengthening the businesses and adding value.

Financial Investments: comprise cash, receivables, shares in funds under management by Convento Capital Management, Oslo Asset Management and Norron Asset Management, equity investments, and other financial assets of Aker ASA (parent and holding companies)

Guiding principles for our Industrial Holdings:

- We exercise an active and committed ownership role
- We have a long-term investment horizon
- We are willing to take significant risk in certain engagements or projects
- We only invest where we can add more than capital
- We concentrate on a limited number of shareholdings
- We never risk Aker's financial soundness
- We only invest in equity in our engagements

Financial objectives:

- Financial flexibility through a sound cash position and gearing potential
- Strong equity ratio
- Positive net interest-bearing position
- Sustainable and increasing upstream cash flow
